ABOUT

Ali Khudair Al Harbi Environmental Consulting

Ali Khudair Al Harbi Environmental Consulting Company (AHEC) is a Category A certified environmental consultancy recognized by the National Center for Environmental Compliance (NCEC) and approved by the Royal Commission for Jubail & Yanbu and RC Jizan, in addition to Aramco Approval.

Since its establishment in **2010**, AHEC has been delivering strategic environmental studies and services that help clients comply with environmental regulations, manage risks, and enhance sustainability.

Category A Certified

National Center for Environmental Compliance (NCEC)

RC Approved

Royal Commission for Jubail & Yanbu and RC Jazan

Aramco Approval

Approved Service Provider for Major Projects

Our Vision

To provide high-quality, scientifically grounded environmental consulting and compliance services that support sustainable development and regulatory compliance across public and private sectors.

Our Mission

To be a leading environmental consultancy in the Middle East, known for reliability, innovation, and measurable environmental outcomes.

Core Values

Integrity & Ethics

Upholding transparency and accountability in all business practices.

Innovation

Leveraging advanced technologies to solve complex challenges.

Operational Excellence

Continuously improving performance and service quality.

Customer Focus

Building lasting relationships through responsive, customized solutions.

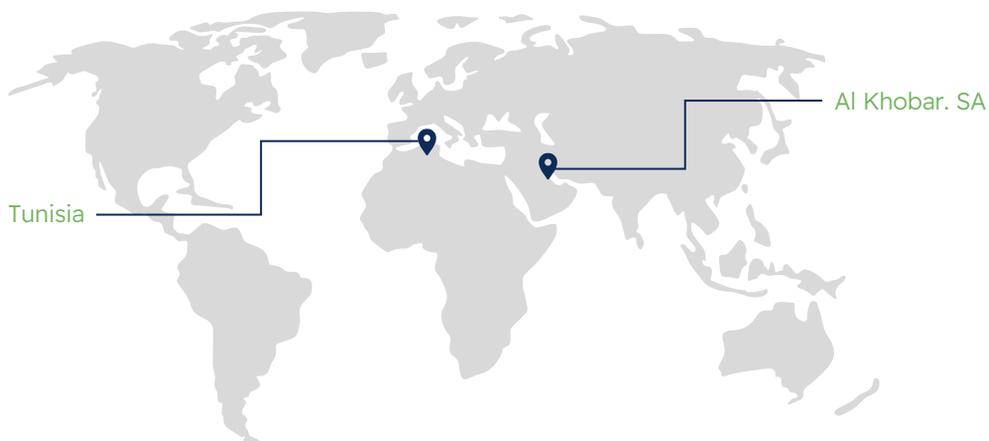

Location & area of work

Headquarters – Al Khobar, Saudi Arabia

The main headquarters of Ali Khudair Al Harbi Company is located in Al Khobar and serves as the company’s central administrative and executive hub, overseeing core operations, strategic planning, and decision-making.

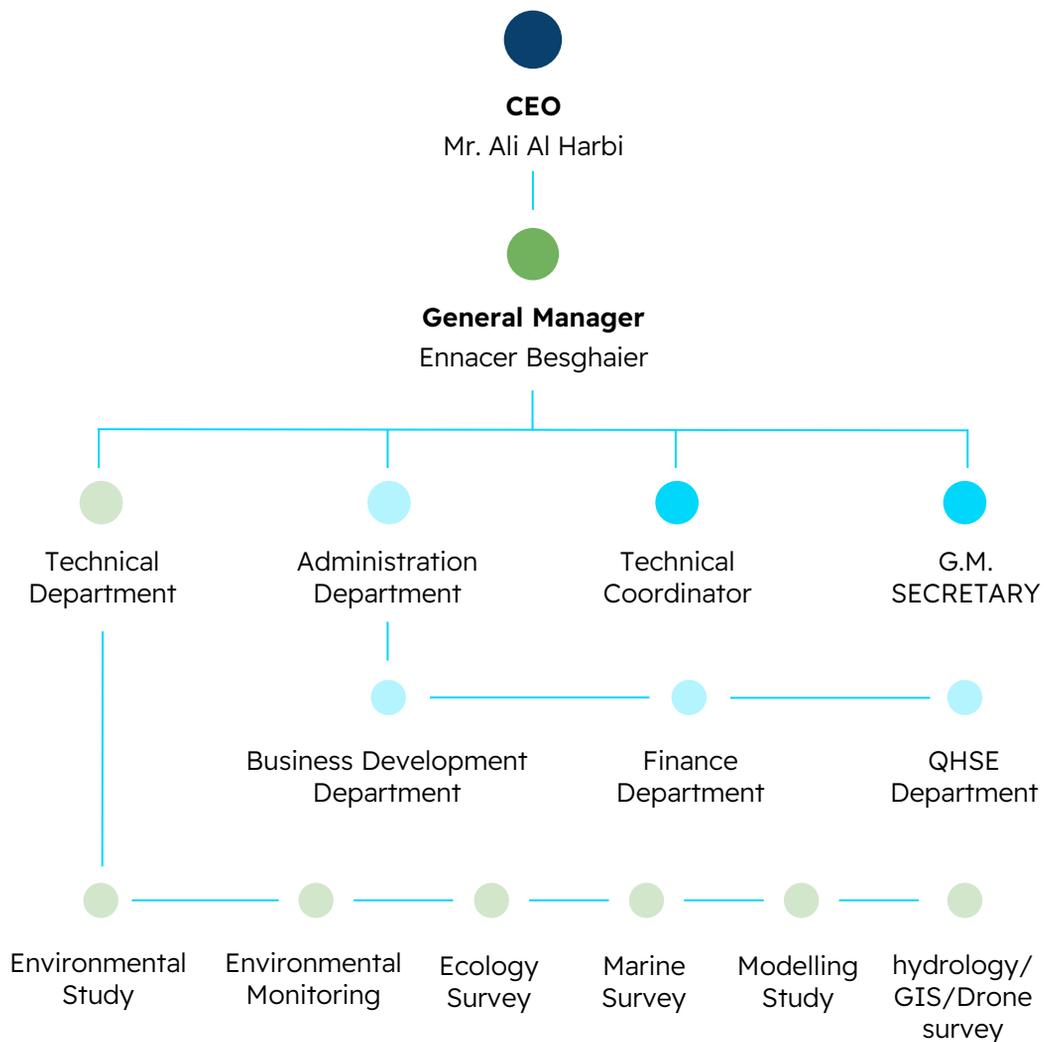

Branch – Tunis, Tunisia

The company operates a branch in Tunis, which supports regional activities and contributes to expanding the company’s international presence and project execution outside Saudi Arabia.

500+ projects successfully delivered across our two locations.

Organizational Chart

Industries & Sectors

Energy, Oil & Gas

Powering the Kingdom's Energy Future Responsibly

We help energy operators consistently achieve full environmental compliance in all their operations and processes.

Water & Desalination

Securing Resource Sustainability for Critical Infrastructure

We enhance sustainability and efficiency in desalination and water facilities, Saudi Arabia's resource security.

Transportation (Railways)

Sustainable Mobility Infrastructure

We ensure transport expansion proceeds responsibly, limiting environmental impacts.

Infrastructure & Mega-Projects

Environmental Leadership for Visionary Developments

We provide science-based environmental solutions for Saudi Arabia's major mega-projects.

Renewable Energy & Power Generation

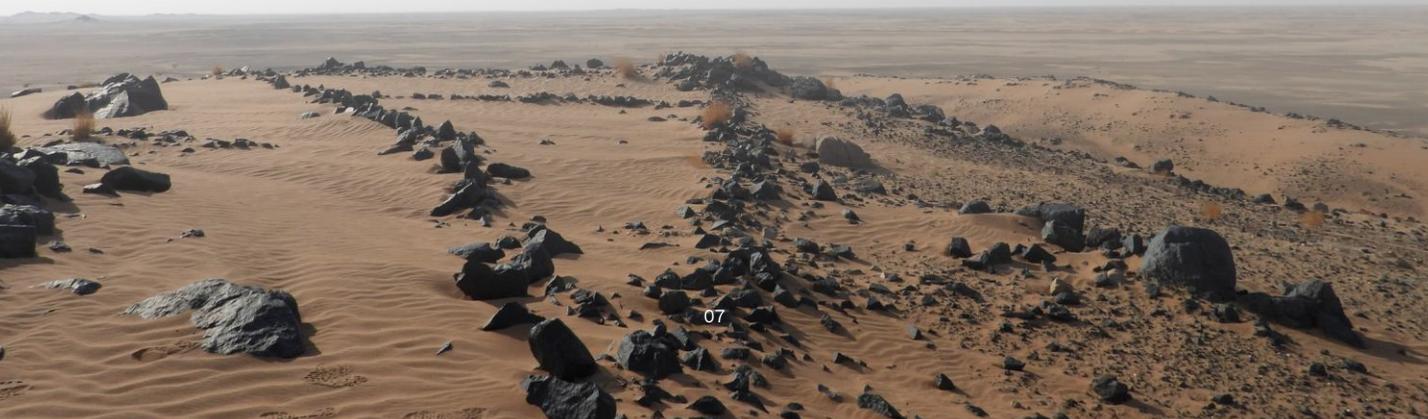

Accelerating the Clean Energy Transition

We support Saudi Arabia's renewable energy via environmental assessments for wind, solar, and grid projects.

Construction & Industrial Facilities

Building Environmental Responsibility

We provide compliance frameworks for safe, efficient, and eco-friendly industrial and construction projects.

OUR SERVICES

Environmental Consulting

Services Overview

Delivering integrated solutions across the full environmental lifecycle.

ENVIRONMENTAL CONSULTANCY

Expert guidance on environmental compliance, impact assessments, and regulatory strategies to help. Organizations minimize their ecological footprint.

SUSTAINABILITY STUDIES

Tailored strategies for carbon reduction, resource efficiency, and sustainable operations that balance environmental responsibility with business objectives.

SAFETY & RISK MANAGEMENT

Comprehensive risk assessments, safety audits, and emergency planning to protect your people, assets, and operations from workplace hazards.

ENVIRONMENTAL MODELING & ANALYSIS

Advanced computational modeling of air quality, water resources, and pollution dispersion to predict impacts and optimize environmental solutions.

QHSE MANAGEMENT SYSTEMS

Development and implementation of integrated Quality, Health, Safety, and Environmental systems to achieve ISO certification and operational excellence.

HYDROLOGY & HYDRAULIC STUDIES

Expert analysis of water resources, drainage systems, and flood risk management for efficient water infrastructure and hazard protection.

GEOGRAPHIC INFORMATION SYSTEMS

Spatial data analysis and mapping solutions that transform complex geographical information into actionable insights for better planning.

TERRESTRIAL & MARINE SURVEYS

Precise land surveys and water flow monitoring that provide accurate data foundation for engineering and environmental project design.

Technical Excellence

Comprehensive environmental solutions tailored to regulatory standard.

Environmental Consultation

Core environmental assessments and regulatory compliance services.

Ecological Studies (Terrestrial & Marine)

Biodiversity and habitat assessments supporting informed decision-making.

Hydrology & Hydraulic Studies

Water systems analysis and flood risk assessment.

Marine & Coastal Studies

Marine baseline, impact assessment, and coastal studies.

Sustainable Solutions

Circular economy, sustainability strategies, and long-term environmental performance optimization.

Environmental Modeling & Analysis

Predictive modeling for environmental impact management.

ENVIRONMENTAL CONSULTANCY

Environmental Impact Assessment Studies (EIA/ESIA)

Environmental Permitting & Licensing

Environmental Monitoring Services

Specialized Ecological Surveys

Environmental Auditing & Compliance

Waste & Wastewater Management

Archeological Surveys

SUSTAINABILITY SOLUTIONS

Circular Economy Studies

Environmental, Social & Governance (ESG) Implementation

Sustainability Assessments & Reporting

Climate Change & Carbon Management

SAFETY & RISK MANAGEMENT

Site Investigation & Contamination Assessment

Risk Assessment Studies

Emergency Response Planning

Quantitative Risk Assessment (QRA)

ENVIRONMENTAL MODELING & ANALYSIS

Hydrodynamic & Marine Modeling

Air Quality Dispersion Modeling

Noise Propagation Modeling

Groundwater Modeling

QHSE MANAGEMENT SYSTEMS

Management System Development

ISO Certification Support

Management System Auditing

QHSE Program Implementation

Contractor QHSE Management

HYDROLOGICAL & HYDRAULIC SYSTEM STUDIES

Hydrological Analysis

Hydraulic System Design

Flood Risk Assessment

Software & Methodologies

GEOGRAPHIC INFORMATION SYSTEMS (GIS)

Spatial Data Management

Environmental Mapping

Spatial Analysis

Project-Specific Applications

GIS Software & Tools

TERRESTRIAL & MARINE SURVEYS

Topographic Surveying

Hydrometric Monitoring

UAV/Drone Photogrammetry (Core Survey Method)

UAV LiDAR Scanning (Advanced 3D Mapping)

Specialized Drone Applications

LIST OF PROJECT

client	Project Name	Location	Scope
SEC	Frame Agreement For (02) Years And Environmental Studies For Permits And Soa & WOA Operation Plants	Saudi Arabia	Provision Of Environmental Services Including Environmental Studies And Permitting, Ecological Surveys (Flora & Fauna), Hydrology And Drainage Assessments, Environmental Monitoring, Air/Noise/Hydrological Modeling, Preparation Of Technical Reports, And Coordination With Sec And Regulatory Authorities To Ensure Full Environmental Compliance.
SEC	Frame Agreement For (02) Years And Environmental Permits And Studies For EOA & Coa Operation Plants	Saudi Arabia	Provision Of Environmental Services Including Environmental Studies And Permitting, Ecological Surveys (Flora & Fauna), Hydrology And Drainage Assessments, Environmental Monitoring, Air/Noise/Hydrological Modeling, Preparation Of Technical Reports, And Coordination With Sec And Regulatory Authorities To Ensure Full Environmental Compliance.
Gulf Consult/ Aramco	Debottleneck Produced Water Facilities South Ghawar Area	Ghawar	Acoustic Study Assessment Of Paga System Audibility And Intelligibility Through Acoustic Modeling And On-Site Measurements To Verify Sound Coverage, Snr, And Performance Across The Facilities. The Study Identifies Coverage Gaps And Provides Practical Recommendations For Speaker Optimization And Compliance With Safety Requirements
China Offshore Oil Engineering Company/ Aramco	Installation Of 1 Jacket For ASBF Oil Field – CRPO 149	Abu Safah	Environmental Impact Assessment (EIA) Conducting A Comprehensive EIA To Support Environmental Permitting, Including Baseline Environmental Studies, Impact Assessment, And Identification Of Mitigation Measures In Line With NCEC Requirements. The Scope Covers Preparation Of The EIA And Scoping Reports, Authority Coordination, And Support Until Obtaining The Environmental Permit To Construct
Gulf Consult / Aramco	Rah Wind Energy Park	Neom, Tabuk	Environmental & Social Impact Assessment Baseline Ecological Surveys And Biodiversity Assessment To Identify Sensitive Habitats And Species, Evaluate Project-Related Impacts, And Define Appropriate Mitigation Measures. The Ecological Findings Are Integrated Into The ESIA To Support Regulatory Approval And Environmental Clearance.
Sepco / Total Energies / Sppc	Tree Translocation Services 300 Mw Rabigh 2 Solar Photovoltaic Project	Rabigh	Biodiversity (Ecology) Survey Pre-Construction Flora And Fauna Surveys To Identify Sensitive Habitats And Species Of Conservation Concern Through Field Surveys, Mapping, And Geo-Referencing. The Scope Includes Impact Assessment, Definition Of Mitigation And Management Measures, And Preparation Of A Biodiversity Report And Gis Package To Support EIA Commitments And Regulatory Requirements
Gulf Consult/ Aramco.	Master Gas System Expansion Phase Iii (Package #13, 15& 17)	Riyadh/Yanbu /Rabigh / Jizan	Hydrology & Washout Protection Study Assessment Of Flood Risk, Surface Runoff, And Wadi Impacts Along Pipeline Routes And Associated Facilities Using Hydrological And Hydraulic Modeling. The Scope Includes Defining Washout And Flood Protection Measures And Providing Practical Design Recommendations In Line With Saudi Aramco Standards

Saudi Aramco E-Reference No. 0012757

Registration Approval Letter

April 09, 2025

Attention : ALI KHUDAIR AL-HARBI ENVIRONMENTAL CONSULTING OFFICE

CR Number : 2051054412

Supplier Type: Service Provider Only

Country : Saudi Arabia

We are pleased to inform you that ALI KHUDAIR AL-HARBI ENVIRONMENTAL CONSULTING OFFICE is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10052809, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Faisal Hamad Al Dossary, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com

Subject: RENEWAL OF RCY ACCEPTANCE AS THIRD PARTY TO CONDUCT EIA IN YIC - ALI KHUDAIR ALHARBI ENVIRONMENTAL CONSULTING CO. (AHEC)

Reference: AHEC's letter (Unreferenced) dated 16 September 2025

Dear Mr. Ennacer,

The Royal Commission Yanbu's Environmental Protection and Control Department (RCY-EPCD) has reviewed the above reference submission and finds it satisfactory. In this regard, **ALI KHUDAIR ALHARBI ENVIRONMENTAL CONSULTING CO. (AHEC)** is hereby **renewed** to conduct Environmental Impact Assessment (EIA) studies as a third-party consultant in Yanbu Industrial City (YIC). This approval is valid for a duration of **two (2) years** from the date of this letter and is subject to compliance with following conditions:

1. The level of service provided by AHEC continues to meet competencies expected by the regulatory authority.
2. Upon notification about updates to the RC Environmental Regulations (RCER), AHEC commits to resubmit its renewal application as needed.
3. Valid NCEC and ISO certifications are mandatory for conducting services in YIC.

Failure to comply with these conditions shall result in revocation of registration and/or rejection of proposed work within YIC.

RCY looks forward to AHEC continue delivering high quality services with utmost integrity.
